Education

B.Tech Undergraduate

Computer Science | 2017-present |
Indian Institute Of Information
Technology, Sri City
CGPA: 9.47 (till 3rd semester)

High School

Atomic Energy Central School - 3
Tarapur | 2015 - 2017 | 93.4 %

Skills

Languages:

Python, C++, JavaScript, Node, Bash,
HTML, CSS

Frameworks:

Django, Django-REST, React,
Bootstrap

Databases:

MySQL, PostgreSQL, MongoDB,
Firestore

Operating Systems:

Linux (Ubuntu) , Windows

Tools:

Git, Docker, OAuth, Firebase, TravisCI,
Coveralls

Courses and MOOCs

Courses:

Data Structures
Algorithms
Applied Software Engineering
Database Management Systems
Machine Learning
Computer Networks

MOOCs:

[Algorithms \(Stanford\)](#)

Experience

Sept - Dec 2018

Project Lead

Techfesias Coding Platform

- A platform to host and conduct coding based challenges, contests primarily to be used in annual technical fest.
- Led a team of 6 members over a period of 3 months.
- Also worked as Backend Developer and Administrator.
- Please see projects section for more details

June - Sept 2018

Backend Developer

Techfesias 2018

- Worked on and maintained the website of the annual technical fest.
- Worked alongside a team of 4 members.
- Coordinated with various other teams (design, front end, app, marketing, hospitality, registration teams)

Projects

Sept - Dec 2018

Techfesias Coding Platform

https://github.com/adwait-thattey/ase1_prj

- A common coding platform for annual technical fest to host challenges, events, contests.
- Leveraged the power of docker to execute uploaded code
- Successfully handled challenges like Safe Remote Code Execution, Multi-Threading, Scheduling Threads, Scalability, RESTification, Limiting Resources etc.
- **Tech Stack: django, django-rest, docker, materializeCSS**

Jan - Feb 2019

Clubs Portal

<https://clubs.iiits.in/>

https://github.com/Project-Club-IIITS/club_portal

- A common portal for all clubs in the institute to make announcements/posts, conduct polls/surveys, organize events, manage members etc.
- Successfully handled various challenges like handling huge data, token based authentications, RESTification, personalized requirements for every club etc.
- **Tech Stack: django, django-rest, firebase, Bootstrap**

Roles And Responsibilities

Oct 2018 - Present

Vice President

IOTA, IIITS <https://github.com/Project-Club-IIITS>

- Started multiple projects in various fields ranging from Web-Dev to AI
- Conducted various skill development sessions and talks

May 2018-Present

Developer

socAIty <https://www.socaiity.org/>
